

LISTING OF DIVISIONS & WHOLE PLANTS
OCTOBER 2017
AUSTRALIAN CUSTOMERS ONLY

***DEN SPECIOSUM* SPECIES & INTERVARIETAL DIVISIONS**
Cedarvale Orchids is closing - and this is another release of our
breeding and stock plants
Number of divisions will be determined when dividing plants
Some plants are established in pots
(refer notes 1-6 below)
Orders will be satisfied on a first come/first served basis.
The listing will be updated regularly on our website:
www.cedarvaleorchids.com
DIVISIONS MUST BE PRE-PAID PRIOR TO DESPATCH

3	Plant Ref. No.	Description	Selling Price (each)
4			
5			\$
6	S010/05	<i>D speciosum</i> var (<i>speciosum</i> 'The Reflex' x <i>curvicaule</i> 'Outland') 'Samford Ivory Star'	SOLD
7		This is the plant that won grand champion of an Orchid Species Spring Show. Produces bench quality flowers on medium arching spikes with excellent presentation. PICTURE OF FLOWERS AVAILABLE	
8	S059/05	<i>D speciosum</i> var <i>speciosum</i> 'Windermere'	SOLD
9		'Windermere' has been used extensively in breeding by most nurseries. This much sought after clone consistently produces beautiful displays of robust broad-segmented yellow flowers. PICTURE OF FLOWERS AVAILABLE	
10	S079/05	<i>D speciosum</i> var <i>capricornicum</i> 'Morrie'	SOLD
11		'Morrie' is one of the nicest white flowered coastal forms of this variety - proven show bench class winner. PICTURES OF FLOWERS AVAILABLE	
12	S083/05	<i>D speciosum</i> var <i>pedunculatum</i> 'Irvinebank'	SOLD
13		We have an issue with var <i>pedunculatum</i> in that with constant good culture the plants all seem to increase in strength and size such that most people do not believe they are var <i>pedunculatum</i> . This is the case with this clone which produces beautifully presented sprays of large var <i>pedunculatum</i> chunky flowers. PICTURE OF FLOWERS AVAILABLE	

	A	B	C
14	S125/06	<i>D speciosum</i> var <i>curvicaule</i> 'Daylight Moon' x 'Jacqueline' - 'Jaq's Moon'	\$250.00
15		An exceptionally good form of variety <i>curvicaule</i> bred with 'Daylight Moon' and 'Jacqueline', in my mind in the same class as 'Daylight Moon' itself. Champion species of Kabi Show 2009. PICTURE OF FLOWERS AVAILABLE	
16	S137/06	<i>D speciosum</i> var <i>boreale</i> 'Mackay'	SOLD
17		Initially this was classified as a var <i>curvicaule</i> which I suspect was collected by the late Ken McPherson. With recent writings by Peter Adams I classify this as a var <i>boreale</i> , small to medium slender canes, short spikes of beautifully presented smallish flowers. A good example of the variety. PICTURE OF FLOWERS AVAILABLE	
18	S153/07	<i>D speciosum</i> var <i>grandiflorum</i> 'Rhonda's Gold'	SOLD
19		I put this in the same category as 'Jelita' - one of the all time best variety <i>grandiflorum</i> available. 'Rhonda's Gold' was bred by Ted Gregory but used 'Larcom Gold' instead of 'Mt Larcom Gold' in conjunction with 'Kroombit Gold'. PICTURE OF FLOWERS AVAILABLE	
20	S195/08	<i>D speciosum</i> var <i>grandiflorum</i> 'Jelita'	SOLD
21		A var <i>grandiflorum</i> bred by Ted Gregory and named by Bevan Burnham both of whom consider this to be one of the best var <i>grandiflorum</i> available - and I agree! PICTURES OF FLOWERS AVAILABLE	
22	S209/08	<i>D speciosum</i> var (<i>speciosum</i> 'Goldilocks' x <i>curvicaule</i> 'Daylight Moon') - 4-cane division	\$160.00
23		'Goldilocks' is a selfing of 'Windermere' and 'Daylight Moon' is the most awarded <i>Den speciosum</i> in Australia - crossing these two has resulted in some exceptional bench quality plants. This is one of them. PICTURE OF FLOWERS AVAILABLE	POTTED
24	S221/08	<i>D speciosum</i> var <i>speciosum</i> 'Stewart'	SOLD
25		I put this plant in the same category as 'Neil's Choice'. 'Stewart' is a crystalline white, heavy- textured flower coming from the Stewart Penman stable. One of the best show bench pure whites of the type variety available. A short squat caned but extremely vigorous clone producing medium sized spikes of broad segmented flowers. A must for the type form enthusiast. PICTURE OF FLOWERS AVAILABLE	
26	S226/09	<i>D speciosum</i> var <i>capricornicum</i> 'Morrie' x self - 1 division available	\$100.00
27		'Morrie' is one of the nicest white flowered coastal forms of this variety - proven show bench class winner - and this is almost identical to 'Morrie'. PICTURE OF FLOWERS AVAILABLE	POTTED
28	S233/09	<i>D speciosum</i> var <i>speciosum</i> 'Bevan' x 'George's River Special' - 3 divisions available	\$160.00
29		We have come to realise that 'Bevan' as a parent plant produces some remarkably good offspring. Married here with 'George's River Special' gives added texture to the segment width. We think so much of the plants from this cross that we have used some in our breeding program. PICTURE OF FLOWERS AVAILABLE	POTTED

	A	B	C
30	S242/09	<i>D speciosum var curvicaule</i> 'Daylight Moon'	SOLD
31		The original plant that received an FCC/AOC and is still one of the best to date. Obviously has all the good aspects of flower shape, presentation, colour, floriferousness. Still much sought after today and in limited supply. PICTURE OF FLOWERS AVAILABLE	
32	S246/09	<i>D speciosum var curvicaule</i> 'Misty Mtn' HCC/ANOS x 'Daylight Moon' FCC/AOC	\$300.00
33		This crossing produces a similar result to the other 'Daylight Moon' crosses but has a tendency to produce larger flowers with heavier texture and wider segments. Considered by some to be the better of the variety <i>curvicaule</i> crosses and looking at the flowers you could understand this thinking. Regular Class winner at our local native show. PICTURE OF FLOWERS AVAILABLE	POTTED
34	S295/10	<i>D speciosum var (capricornicum</i> 'Big Boy' x <i>speciosum</i> 'George's River Special') 'Georgie Boy'	SOLD
35		A similar result to the crossings of 'Bevan' and 'George's River Special' but the 'Big Boy' influence gives rise to larger flowers with broader segments. PICTURE OF FLOWERS AVAILABLE	
36	S320/11	<i>D speciosum var speciosum</i> 'Windermere' x 'Heather' AM/ANOS - 1 division available	\$160.00
37		'Windermere' has been used extensively in breeding by most nurseries. This much sought after clone consistently produces beautiful displays of robust broad-segmented yellow flowers. Mated with 'Heather' which is an AM awarded plant to produce some excellent bench quality type flowers. PICTURE OF FLOWERS AVAILABLE	POTTED
38	S326/11	<i>D speciosum var curvicaule</i> 'Blake' x 'Misty Mtn'	SOLD
39		This plant produces top quality show bench flowers with exceptionally heavy textured segments. Similar in colour and presentation to the best of the <i>curvicaule</i> . REFER TO S311/11 FOR PICTURE OF SIMILAR FLOWERS	
40	S330/11	<i>D speciosum var (speciosum</i> 'Windermere' x <i>curvicaule</i> 'Palmerston')	\$125.00
41		A mating here of two extremely good and well-known parents producing flowers showing the best aspects of this intervarietal cross. PICTURE OF SIMILAR FLOWERS AVAILABLE - REFER S426/15	
42	S344/12	<i>D speciosum var curvicaule</i> 'Palmerston' x 'Jacqueline' - 1 division available	\$135.00
43		Again a top result in <i>curvicaule</i> breeding. - 'Palmerston' is a highly awarded <i>curvicaule</i> with all the traits of an AM plant. 'Jacqueline', when mated with 'Daylight Moon' produced some of the best bench quality plants we have bred and the results of this mating should be as good as if not better than these. PICTURES OF FLOWERS AVAILABLE	POTTED
44	S348/12	<i>D speciosum var speciosum</i> 'Impressive' - 1 x 4-cane division	\$330.00
45		'Impressive' is a selfing of 'Dreamtime' which is described as having 'stout canes producing medium spikes of very large white flowers possibly one of the largest for the type'. If you can imagine something better than this than you can imagine 'Impressive' - at first flowering it produced a spike 920mm long containing 114 flowers the base flower being 80mm tall by 55mm wide which when first seen was exclaimed 'Wow!! that's impressive'. A must for the serious collector. PICTURE OF FLOWERS AVAILABLE	POTTED

	A	B	C
46	S356/11	<i>D speciosum</i> var <i>curvicaule</i> 'Blake' x 'Misty Mtn'	\$150.00
47		This plant produces top quality show bench flowers with exceptionally heavy textured segments. Similar in colour and presentation to the best of the var <i>curvicaule</i> . REFER TO S311/11 FOR PICTURE OF SIMILAR FLOWERS	
48	S390/14	<i>D speciosum</i> var <i>speciosum</i> 'Neil's Choice' - only 1 piece - 6 canes	SOLD
49		This is a plant known for its large heavy segmented flowers crystalline white in appearance carried on long spikes with excellent presentation. The plant itself is a very vigorous grower with heavy thickset canes. PICTURE OF FLOWERS AVAILABLE	
50	S395/14	<i>D speciosum</i> var <i>grandiflorum</i> 'Michelle' x 'Jelita'	SOLD
51		This division is a good variety <i>grandiflorum</i> , large golden flowers on long sprays, similar to the parents. Produces flowers similar to 'Rhonda's Gold' x 'Michelle'. PICTURE OF SIMILAR FLOWERS AVAILABLE - REFER S476/17	
52	S396/14	<i>D speciosum</i> var <i>curvicaule</i> 'Palmerston' x 'Jacqueline'	SOLD
53		Again a top result in var <i>curvicaule</i> breeding. - 'Palmerston' is a highly awarded var <i>curvicaule</i> with all the traits of an AM plant. 'Jacqueline', when mated with 'Daylight Moon' produced some of the best bench quality plants we have bred and the results of this mating should be as good as if not better than these. PICTURE OF SIMILAR FLOWERS AVAILABLE - REFER S344/12	
54	S413/15	<i>D speciosum</i> var <i>grandiflorum</i> 'QOS91' x self - 1 x 4-cane divisions available	\$100.00
55	S413/15	<i>D speciosum</i> var <i>grandiflorum</i> 'QOS91' x self - 1 x 3-cane division available	\$55.00
56	S413/15	<i>D speciosum</i> var <i>grandiflorum</i> 'QOS91' x self - 1 x 2-cane division available	\$45.00
57		Another great var <i>grandiflorum</i> , grand in all aspects of plant size, flower size and length of spike. Similar to the parent producing beautifully presented sprays of rich gold flowers. PICTURE OF FLOWERS AVAILABLE	POTTED
58	S461/17	<i>D speciosum</i> var <i>curvicaule</i> 'Bevan's Pride'	SOLD
62		A very good var <i>curvicaule</i> from Bevan Burnham who won a show championship with this plant which was also awarded a HCC. Strong growing plant producing long sprays of well-presented well-spaced typical var <i>curvicaule</i> flowers. PICTURES OF FLOWERS AVAILABLE	
63	S462/17	<i>D speciosum</i> var (<i>speciosum</i> 'Beechwood' x <i>curvicaule</i> 'Palmerston')	SOLD
64		An intervarietal cross which produces squat strong-growing canes similar to a good type var <i>speciosum</i> canes. Produces medium-sized flowers on upright spikes which may arch as the plant increases in size. PICTURE OF FLOWERS AVAILABLE	

	A	B	C
65	S470/17	<i>D speciosum</i> var <i>speciosum</i> 'Wattagan White' x 'Mangrove Mtn Gold'	SOLD
66		'Wattagan White' is one of the best whites to come out of the area - well-presented medium sized crystal-white flowers from short robust canes. 'Mangrove Mtn Gold' to me is a surprise var <i>speciosum</i> both in plant structure and flower colour. The resulting cross of these two produces extremely well-presented strong golden flowers which has caused discussions amongst enthusiasts that they look more like var <i>grandiflorum</i> than var <i>speciosum</i> but I stand by the provenance of both parents. PICTURE OF FLOWERS AVAILABLE	
67	S477/17	<i>D speciosum</i> var (<i>speciosum</i> 'National White' x <i>curvicaule</i> 'Daylight Moon') 'Samford Moon'	SOLD
68		An outstanding orchid from two outstanding parents - the picture tells the story. Champion Specimen at the 2009 ANOS (Qld) Kabi Group Spring Show. Also Champion Species at the Woollongong Show in 2010. As a first flowering seedling the spikes carried 110 flowers and were 600mm+ in length. PICTURE OF FLOWERS AVAILABLE	
69	S478/17	<i>D speciosum</i> var <i>capricornicum</i> 'Carnarvon C' - 1 division available	\$135.00
70		Typical Carnarvon clone collected in the 1980's producing rich beetroot coloured new growths and pale lemon flowers. NO PICTURES OF FLOWERS AVAILABLE	POTTED
71	S479/17	<i>D speciosum</i> var <i>curvicaule</i> 'Ivory Star' x 'Daylight Moon'	\$110.00
72		An exceptionally good form of var <i>curvicaule</i> . Expect mustard coloured flowers with large segments and heavy texture on medium upright/arching spikes - definite bench quality. PICTURE OF SIMILAR FLOWERS AVAILABLE - REFER S299/11 and S247/09	
73	S480/17	<i>D speciosum</i> var <i>grandiflorum</i> 'Rhonda's Gold' x 'Michelle' - 4-cane division	\$100.00
74	S480/17	<i>D speciosum</i> var <i>grandiflorum</i> 'Rhonda's Gold' x 'Michelle' - 4-cane division	\$100.00
75		I put this in the same category as 'Jelita' - one of the all time best var <i>grandiflorum</i> available. 'Rhonda's Gold' was bred by Ted Gregory but used 'Larcom Gold' instead of 'Mt Larcom Gold' in conjunction with 'Kroombit Gold'. 'Michelle' is one of the strongest growing var <i>grandiflorum</i> I have yet seen - grand in all aspects, length of spike, flower size and plant growth. PICTURE OF PARENT FLOWERS AVAILABLE - REFER S153/07 ('Rhonda's Gold') and S071/05 ('Michelle')	POTTED
76	Hybrid	<i>D</i> (Ivory x <i>speciosum</i>) x <i>speciosum</i> var <i>curvicaule</i> 'Apricot Surprise' = <i>D</i> Greta Gold '#2' - 1 division available	\$135.00
77		This cross was made by Don Cruickshanks using the same <i>Den speciosum</i> that was used in the <i>Den</i> Greta Snow breeding. The result is brilliant orange/gold flowers very <i>speciosum</i> -like in presentation and shape. Definite show bench quality and I believe, potential award quality. PICTURE OF FLOWERS AVAILABLE	POTTED

	A	B	C
78	WHOLE PLANTS (ESTABLISHED)		
79			
80	S125/06	<i>D speciosum</i> var <i>curvicaule</i> 'Jaq's Moon' (whole plant)	SOLD
81	S125/06	<i>D speciosum</i> var <i>curvicaule</i> 'Daylight Moon' x 'Jacqueline' - 'Jaq's Moon' (whole plant)	\$250.00
82		An exceptionally good form of var <i>curvicaule</i> bred with 'Daylight Moon' and 'Jacqueline', in my mind in the same class as 'Daylight Moon' itself. Champion species of Kabi Show 2009. PICTURE OF FLOWERS AVAILABLE	
83	S251/09	<i>D speciosum</i> var <i>grandiflorum</i> 'Mt Larcom Gold' x 'Kroombit Gold' (HCC/AOC) 'Kabi 2012' (whole plant)	SOLD
84		This is one of the 'Mt Larcom Gold' x 'Kroombit Gold' crosses that I kept. I considered it to be one of the best of the seedlings and of the same quality as 'Jelita'. My thoughts were confirmed at the 2012 ANOS Kabi Show when it was champion species. PICTURE OF FLOWERS AVAILABLE	
85	S330/11	<i>D speciosum</i> var (<i>speciosum</i> 'Windermere' x <i>curvicaule</i> 'Palmerston') (whole plant)	\$120.00
86		This plant is from two of the top breeders in the species and a number of winners have come from this cross. 'Windermere' adds dimension to the 'Palmerston' flowers resulting in perfect presentation of yellow show bench quality spikes. PICTURE OF SIMILAR FLOWERS AVAILABLE - REFER S426/15	
87	S388/14	<i>D speciosum</i> var <i>curvicaule</i> 'Bee Creek' x 'Daylight Moon' (whole plant)	\$250.00
88		This cross has produced a number of awarded plants and this clone shows definite show championship potential. Very similar in presentation and habit to 'Daylight Moon' itself. Most plants from this cross are almost identical showing very little variation. PICTURES OF FLOWERS AVAILABLE	
89	S392/14	<i>D speciosum</i> var (<i>speciosum</i> 'The Reflex' x <i>curvicaule</i> 'Outland') (whole plant)	SOLD
90		This is the plant that won grand champion of an Orchid Species Spring Show. Produces bench quality flowers on medium arching spikes with excellent presentation. PICTURE OF FLOWERS AVAILABLE	
91	S413/15	<i>D speciosum</i> var <i>grandiflorum</i> 'QOS91' x self - (whole plant)	SOLD
92		Another great var <i>grandiflorum</i> , grand in all aspects of plant size, flower size and length of spike. Similar to the parent producing beautifully presented sprays of rich gold flowers. PICTURE OF FLOWERS AVAILABLE	

	A	B	C
93	S481/17	<i>D speciosum</i> var <i>speciosum</i> 'Kate's Special' (whole plant)	SOLD
94		A much sought after type form <i>Den speciosum</i> which on its day will compete with anything else on the bench. Short squat canes and medium-sized spikes of beautiful crystalline white flowers beautifully presented. PICTURE OF FLOWERS AVAILABLE	
95	S483/17	<i>D speciosum</i> var <i>speciosum</i> 'Dorothy' x 'Charlie' (whole plant)	SOLD
96		'Dorothy' is a plant collected by Ted Gregory and used in his breeding program. A very typical robust var <i>speciosum</i> when flowered properly can hold its own with the best of them. 'Charlie' was awarded an AM in the 1990's and still has the reputation of still being one of the best var <i>speciosum</i> being benched. An oldie but a goodie!! PICTURE OF PARENT PLANTS AVAILABLE - REFER S061/05 ('Charlie') + 'Dorothy'	
97	S484/17	<i>D speciosum</i> var <i>speciosum</i> 'Dorothy' x 'Glennins' (whole plant)	SOLD
98		'Dorothy' is a plant collected by Ted Gregory and used in his breeding program. A very typical robust var <i>speciosum</i> . 'Glennins' is one of the classical old time <i>Den speciosum</i> that on its day can still hold its own with the best of the modern line bred forms. Awarded an AM in the late 1980's/early 1990's. PICTURE OF FLOWERS AVAILABLE - REFER TO S441/16	
99	S485/17	<i>D speciosum</i> var <i>curvicaule</i> 'Gloucester' x 'Bevan's Pride' (whole plant)	SOLD
100		'Gloucester' is a plant used extensively by Ted Gregory in his breeding that he obtained from Ken McPherson. An extremely robust form of variety <i>curvicaule</i> displaying all the traits of one of the better forms. Collected as a wild plant by Ken McPherson. 'Bevan's Pride' is a var <i>curvicaule</i> from Bevan Burnham which received a champion of show and awarded of HCC. PICTURE OF SIMILAR FLOWERS AVAILABLE - REFER S188/07 ('Gloucester') & S461/17 ('Bevan's Pride')	
101			
102	Note 1	All divisions will have a minimum of 5-6 canes and will include forward canes which will be sent bare root unless noted as established/whole plants in which case they will be sent potted. Should potting of bare root divisions be requested an extra charge of \$10 will apply. Pictures of flowers are available on the website (where available).	
103	Note 2	Number of divisions available from each plant will be determined when dividing takes place. All orders will be taken on a first come basis (either by email or by phone)	
104	Note 3	Freight/packaging/handling will incur an extra cost depending upon size/weight of package.	
105	Note 4	We do not accept orders to Tasmania or Western Australia due to their import requirements.	
106	Note 6	This divisions listing and pricing applies to <u>Australian</u> customers only.
